Dear Parents/Carers,

2nd February, 2016

Each year, voluntary school contributions (school fees) made by families are returned directly to our children through the purchase of class resources and the enhancement of educational and sporting programs. Each payment of $45 per child (capped at $90 per family) makes a significant impact on life at school and is gratefully received by the end of Term 1.

Please remember that payment of these fees is not compulsory. Payment status remains confidential and no child will suffer discrimination or disadvantage through non-payment. If you require assistance with payment or have any questions, please contact me through the school’s office.

Regards,

Darren Denmead, Relieving Principal
